

Evening Talk - Mobile Devices and the Impact on Information Management

Mobile devices continue to be a driving force and challenge for many organizations in relation to managing content and records. This discussion will include a combination of research data and common issues related to the use of mobile device use for the capture and management of content and records. In addition we will also discuss the lack of and need for governance and security strategies in relation to the use of mobile devices.

The presentation will be given by **Bob Larrivee** from the Association for Information and Image Management (AIIM). Bob is an internationally recognized lecturer with over thirty years of experience in the application of advanced technologies and process improvement, and the recipient of the Cenadem - Brazil ECM Pioneer Award. Bob is Director and Industry Advisor with AIIM International. In this role, Bob works in identifying, developing and delivering specialized training in best practices, technology and methodologies.

This event will be held on the **evening of Wednesday 11th July 2012 at the Corinthia San Gorg** at 6.00pm. This event is free of charge for all attendees. Join us for this event by sending an email to secretary@bcs.org.mt
